Indicators and Buttons

The S5731-S48S4X-A has the same types of indicators as the S5731-S32ST4X-A. For details, see the S5731-S32ST4X-A.

Power Supply System

The switch has a built-in AC power module and does not support pluggable power modules.

Heat Dissipation System

The switch has two built-in fans for forced air cooling. Air flows in from the left side and front panel, and exhausts from the right side.

NOTE

This figure only shows the airflow direction and does not depict the actual device.
